

### **REMARKS**

Applicants have amended the title of the invention to correct a typographical error. Applicants hereby request the Examiner approve entry of the above amendment. The application is in condition for allowance based on the Notice of Allowance mailed November 29, 2007, except for the above noted typographical error in the title.

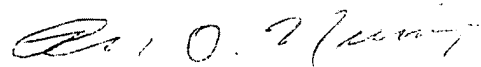

The error has been corrected with the above amendment. The Examiner has authority to enter amendments submitted after Notice of Allowance of an application which embody merely the correction of trivial matters which do not affect the scope of the claims as allowed. Accordingly, Applicants request this amendment be entered without withdrawing the case from issue. Such amendment is needed for the proper definition of the invention and does not change the basis for the patentability of the claims. Applicants apologize for not noticing the error earlier.

In light of this amendment, the patent application, including the title, as amended, taken together with the specification and drawings of record, is now in proper form to proceed to issue.

Should the Examiner have any further comments or suggestions, Applicants request that the Examiner contact the undersigned in order to expeditiously resolve any outstanding issues.

Applicants do not believe this amendment requires any extension of time or other fees. Nevertheless, if any fees are required, please charge such fees to the deposit account of Texas Instruments Incorporated, Account No. 20-0668.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Ronald O. Neerings".
